

09:30 – 10:30 Early-Access, Registration, Coffee & Networking**10:30 – 11:00 Your Cybersecurity Journey: Safeguarding your Org's Future**

Presented by: David Hagen – Technology Evangelist, TPx

Bio: [linkedin.com/in/david-hagen-9b09171b5](https://www.linkedin.com/in/david-hagen-9b09171b5)

What if your cybersecurity strategy was a cross-country road trip—with ransomware hiding in the potholes? Discover how to map uncharted risks, pack unseen essentials, and train reluctant copilots before the engine starts. We'll navigate dark highways where threats loom and rest stops save your engine. Your destination? A future where breaches don't derail you. Leave with the map to a future where threats don't define your destination.

11:00 – 11:45 CXO Panel: AI Organizational Preparedness

Moderated by: Jovan Marconi – Chief Information Officer, Inland Real Estate Group

Bio: [linkedin.com/in/jovan-marconi-bb707617/](https://www.linkedin.com/in/jovan-marconi-bb707617/)

Join our panelists, Riaz Yusuff (CIO, Harper College), Sofia Vujatov (Head of Business Technology, LaSalle Investment), and MJ McSheehy (CISO, Belmont Point Management), to discuss AI organizational preparedness as it relates to cybersecurity, talent development, and data/BI integration. Tune in to this panel discussion to ensure your organization thrives in the AI-driven landscape.

11:45 – 12:30 Main Networking Session

Take time to meet with peers and exhibitors. Use the Exhibitor Passport to attain signatures from each vendor for our end-of-day prize raffles.

12:30 – 01:10 Lunch Buffet**01:10 – 01:30 Data Exfiltration: An Existential Threat**

Presented by: John Sarantakes – Chief Revenue Officer, BlackFog

Bio: [linkedin.com/in/evan-john-sarantakes/](https://www.linkedin.com/in/evan-john-sarantakes/)

Data exfiltration is an existential threat to all organizations, regardless of sector or geography. Unauthorized exfiltration jeopardizes sensitive info, IP, and client trust. Cybercriminals, malicious insiders, and sophisticated malware continuously exploit security gaps to extract critical data, often leading to extortion, financial losses, regulatory penalties, and reputational damage. With endpoints serving as prime targets for attackers, organizations must adopt a proactive approach to mitigate this very real threat. With 94% of all publicized ransomware attacks now exfiltrating data, enterprises must look to new solutions to mitigate the risk. To stay ahead of cybercriminals and protect the data entrusted to them, a multi-layered cybersecurity strategy is critical. Let's explore how organizations can prevent ransomware and significantly reduce the risk of data exfiltration by prioritizing real-time monitoring, automated threat detection, specifically for new AI

based threats and endpoint hardening. In today's cyber landscape, safeguarding critical data is not optional—it's imperative for survival.

01:30 – 01:50 Limitless Connectivity, Limitless Possibilities

Presented by: Jake Montaba – Sales Engineer Consultant, Ericsson

Bio: [linkedin.com/in/jake-montaba-b614a913/](https://www.linkedin.com/in/jake-montaba-b614a913/)

Discover how advanced cellular solutions and wireless WAN technology empower enterprises and governments with the flexibility to navigate challenges in uncertain times, the agility to creatively address problems and adapt to evolving customer needs, and the freedom to conduct business on their own terms.

01:50 – 02:10 Accelerating Innovation: Aligning IT with Business for Speed, Agility, & Impact

Presented by: Josh Wood – Principal Solutions Engineer, Dynatrace

Bio: [linkedin.com/in/joshuadwood/](https://www.linkedin.com/in/joshuadwood/)

In today's fast-paced digital landscape, CIOs are challenged to deliver technology that not only works—but works fast, securely, and in lockstep with business goals. Join Dynatrace as we explore how intelligent observability and automation empower IT teams to accelerate time-to-market, enhance security posture, and drive continuous innovation. Learn how aligning IT with business strategy transforms agility into a competitive advantage, improves productivity, and delivers measurable value across the enterprise.

02:10 – 02:45 Networking & Prize Raffles

Raffle will take place on the stage at 2:30pm sharp. **Must be present to win a prize!**
