09:30 – 10:40   **Early-Access, Registration, Coffee & Networking**

10:40 – 11:10   **Your Cybersecurity Journey: Safeguarding your Org's Future**

Presented by: David Hagen – Technology Evangelist, TPx
Bio: linkedin.com/in/david-hagen-9b09171b5

What if your cybersecurity strategy was a cross-country road trip—with ransomware hiding in the potholes? Discover how to map uncharted risks, pack unseen essentials, and train reluctant copilots before the engine starts. We'll navigate dark highways where threats loom and rest stops save your engine. Your destination? A future where breaches don't derail you. Leave with the map to a future where threats don't define your destination.

11:10 – 11:25   **Automating resiliency of cloud workloads with Observability and Agentic AI**

Presented by: Markie Duby – Director Solutions Engineering, Dynatrace

Bio: linkedin.com/in/markieduby/

Now that you have successfully deployed your mission-critical applications in the cloud, the next challenge is to not only understand your deployment architecture but also to architect a solution that can self-heal the deployments and streamline your team's workflows. For cloud workloads, observability is no longer an option but a key element to achieving successful business outcomes that drive growth. With the adoption of agentic AI apps across enterprises, combining the power of observability and AI makes an effective combination to bring resiliency to the cloud deployment. This session will present real use cases and examples of bringing resiliency to cloud workloads and streamlining remediation workflows using observability and agentic AI apps.

11:30 – 11:45   **Limitless Connectivity, Limitless Possibilities**

Presented by: Jon Fisher – Sales Engineer Consultant, Ericsson
Bio: linkedin.com/in/jon-fisher-bbb8a0216/

Discover how advanced cellular solutions and wireless WAN technology empower enterprises and governments with the flexibility to navigate challenges in uncertain times, the agility to creatively address problems and adapt to evolving customer needs, and the freedom to conduct business on their own terms.

11:45 – 12:30   **Main Networking Session**

Take time to meet with peers and exhibitors. Use the Exhibitor Passport to attain signatures from each vendor for our end-of-day prize raffles.

12:30 – 01:10   **Lunch Buffet**

01:10 – 01:25　　**Regain control of shadow SaaS and secure the Workforce Edge**

Presented by: Griff Chafey – Director Sales, Nudge Security

Bio: linkedin.com/in/griffithchafey

The reality is that your workforce is making decisions every day about what apps (and vendors) are brought into your organization and how data flows across them, often without visibility or approval of IT. This is the Workforce Edge and without proper oversight and governance, this edge becomes a major source of risk and sprawl.

In this session, you'll learn how to:

- Discover what SaaS and GenAI tools your workforce really uses
- Improve MFA and SSO coverage and password hygiene
- Surface app-specific misconfigurations and security gaps
- Assess the security of new and unfamiliar apps
- Reduce SaaS sprawl and wasted spend
- Tighten data security with insights into integrations and file-sharing

01:25 – 02:15　　**CXO Panel: AI Organizational Preparedness**

Moderated by: Bindi Dave – CISO, Digital Trust Executive, and Board Advisor

Bio: linkedin.com/in/bindidave/

Join our panelists, Shannon Wilson (VP IT, University of Phoenix), Gary Chan (CISO, SSM Health), Dana Kline (CIO, Cordia Energy) and Jeff Zygmunt (Head of IT Security, Enstar Group) to discuss AI organizational preparedness as it relates to cybersecurity, talent development, and data/BI integration. Tune in to this panel discussion to ensure your organization thrives in the AI-driven landscape.

02:15 – 02:45　　**Networking & Prize Raffles**

Raffle will take place on the stage at 2:30pm sharp. **Must be present to win a prize!**
